Professional Summary

Fourth-year AI/ML student with hands-on experience across the ML lifecycle – data processing, model building, and deployment – using Python, SQL, and Power BI, including exposure to RAG and generative AI. Built full-stack applications and ML pipelines through internships and personal projects. Seeking roles in AI/ML Engineering, Software Development, or Data Analytics.

Education

VIT Bhopal University

B.Tech, Computer Science (AI & ML); CGPA: 7.51

Sehore, Madhya Pradesh

Aug. 2023 – May 2027

Technical Skills

Languages: Python, Java, C++, JavaScript, SQL

AI/ML: TensorFlow, PyTorch, Scikit-learn, Computer Vision, NLP, Ensemble Learning

Generative AI: RAG, Prompt Engineering, LangChain, Hugging Face

Data & Analytics: Pandas, NumPy, Power BI, EDA

Web & Databases: Vue.js, Nuxt.js, React, REST APIs, MySQL, MongoDB

DevOps/Cloud: Git, GitHub, Docker, CI/CD, AWS/Azure basics, Linux

Core CS: Data Structures & Algorithms, System Design, Performance Testing

Experience

AI/ML Intern

May 2025 – Jul. 2025

MPOnline

Remote

- Built ML pipelines (classification, regression) using NumPy, Pandas, and Scikit-learn.
- Trained deep learning models (CV, NLP) with TensorFlow/PyTorch and deployed via Flask/FastAPI.
- Improved model performance through hyperparameter tuning and PCA-based dimensionality reduction.

Software Engineering Intern

May 2025 – Jul. 2025

MPOnline

Remote

- Built full-stack apps using MVC architecture with SQL-backed RESTful APIs.
- Handled requirement analysis, unit testing, and bug fixing across the SDLC.
- Deployed services to cloud infrastructure and set up CI/CD workflows using n8n.

Projects

Fault Detection & Diagnosis | Docker, System Testing

Jul. 2025

- Containerized diagnostic scripts with multi-stage Docker builds for consistent environments.
- Built regression tests to detect and isolate pipeline failures.

BowlForm AI | Python, Computer Vision, Deep Learning

Mar. 2026

- Built a real-time sports biomechanics tracking pipeline using deep learning.
- Optimized frame processing for high frame-rate output with minimal lag.

App Ideas Solutions | System Design

Mar. 2026

- Curated an open-source repository of architectural project briefs and solution designs.

Certifications

Ethical AI – Infosys | Introduction to Generative AI – Google Cloud | Cloud Computing – NPTEL
